

**Commonwealth of Virginia
Database Index Reporting Form**

1. Public Body Name & Numeric Code: Virginia Department of Transportation

10040

2. Database Title: Geographic Information System Integrator

4. Point of Contact: Melanie Seigler

5. Phone Number: (804) 786-4966

3. Database Acronym: GIS

6. Signature & Date: *Melanie Seigler* 7/13/04

7. Database Description and Contents: *(Provide a brief narrative summary of the purpose for which the database is maintained in support of the business of state government and a description of the general contents of the database. Indicate know restrictions to public access.)*
The Geographic Information System Integrator is a map-based graphical user interface that links business and spatial data from various VDOT databases. An enterprise wide tool accessible from the desktop, the integrator allows users access to business data by querying locations on a map. Accidents, traffic volume, pavement material, new construction, and other transportation related data can be displayed for a given section of road or an entire road system within the state. Users simply select a data layer and a geographic location to formulate their query and return the sought after information.

Note: Specific information relating to data fields, recordable layouts and known restrictions to public access is maintained by the public body. Please contact the point of contact noted in Item 4 for further details.

8. Date of Last Update:
See #9

9. Frequency of Update: ☐ Daily, ☐ Weekly, ☐ Monthly,
Other: GIS's data layers are updated on different schedules -
some daily, weekly, monthly, quarterly.

10. Formats Available and Schedule of Fees: *(Provide a description of each format in which the database is made available, and the cost, if any of each format.)*

a. Format Personal geodatabase (Access format) SDE export; a map service/web service in some cases

b. Cost Approximately \$20.00 / hour for the processor's time
